## Projects

**Ascent Sobriety Tracker:** I developed the concept and logic in **JavaScript** for the non-linear tracking of sober days. As group leader I oversaw and contributed to all aspects of this project and managed the repo. I am now refactoring this project in **React Native** to reach the public. [github.com/keiththarp/Ascent-Sobriety-Tool](https://github.com/keiththarp/Ascent-Sobriety-Tool)

**Vedge-In Challenge:** I built the Plant Search and Meal Log components with **React Hooks** and **Material UI** and worked on the custom **CSS** that styles the entire app. [github.com/keiththarp/vedge-in](https://github.com/keiththarp/vedge-in)

**Day-By-Day:** Used **jQuery**, **Moment.js**, and local storage to create a simple day planner with a sliding clock that moves down the planner and color codes past time slots. [keiththarp.github.io/day-by-day-planner/](https://keiththarp.github.io/day-by-day-planner/)

## Experience

**Kate & Keith Photography: Web & Marketing manager** - I've focussed the last five years years researching, learning, and implementing **SEO** practices to improve our organic lead generation, leading to a 400% increase in one of our key services.

**Sustainable Seacoast: Executive Director/CoFounder** - Worked with restaurants and events to reduce overall waste, focussed specifically on single-use plastic. Spoke at **TEDx** educating folks of opportunities to reduce and eliminate single-use plastic.

**Millennium Running: Marketing Director** - Designed and built website using Wordpress, incorporated with marketing campaigns from social media to successfully and consistently sell out multiple events. Worked with **Photoshop** and **Illustrator** to create digital and print collateral for events and marketing campaigns.

## Education

**University of New Hampshire: Full Stack Coding Bootcamp** - I worked on several great projects taking roles spanning all aspects of web development. I enjoyed the team aspect of group projects for the support and creativity it brought into the process.

**Assorted Industry Certifications: Photo & Marketing related** - Photojournalism for wedding photography, Photoshop & Illustrator, Facebook Marketing.

## Skills

- **HTML/CSS**
- **JavaScript**
- **SQL/MongoDB**
- **React**
- **TypeScript**
- **WordPress**
- **SEO**
- **Adobe Suite**
- **Marketing/Social**

## About Me

**Self-driven, alcohol free, environmentalist:** Career-changer with entrepreneurial spirit looking to combine my technical skills, business savvy, and creative problem solving abilities with a Full Stack Engineering role at a mission-driven company. I'm a dog lover, non-fiction reader, outdoors enthusiast, and aspiring minimalist.
